The background of the slide features a green map with red and blue lines representing streets and water. A magnifying glass is positioned over the map, with its handle pointing towards the bottom left. In the center of the magnifying glass, there is a circular area containing binary code (0s and 1s).

**How does
OpenStreetMap
Community
communicate?**

Active OpenStreetMap communication channels across the globe

~103 Facebook pages and ~96 Facebook groups

The image displays a vertical list of Facebook pages for OpenStreetMap in various countries. The pages are shown in a grid-like format, with each entry including a profile picture, the page name, member count, and a 'Join' button. The countries listed are Algeria, 旭川 (Asahikawa), Romania, Halphong, 北陸 (Hokuriku), 経路マッピングパーティ (Route Mapping Party), and IDMVS, DU Wing. To the right, a partial view of another Facebook page is visible, showing a post from 'MARIUZ KRZYSZAK and 19 other friends like this' and a list of similar pages including OpenStreetMap France, OpenstreetmapSudan, Openstreetmap Lesotho, and OpenStreetMap Maroc.

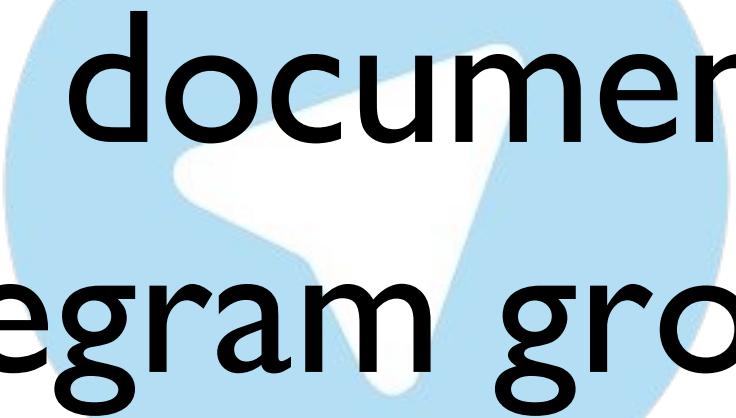

Country/Region	Members	Page Type
Algeria	125 members	Community
旭川 (Asahikawa)	5 members	Community
Romania	371 members	Community
Halphong	72 members - 2 posts a year	Community
北陸 (Hokuriku)	37 members	Community
経路マッピングパーティ (Route Mapping Party)	38 members	Community
IDMVS, DU Wing	-	Community

**How can this
fragmentation be
useful?**

**These bring the
community together!**

A magnifying glass with a grey handle and a light blue lens is positioned over a green map. The map features red and blue lines representing roads and water. Inside the magnifying glass, the binary code '01100', '011010', and '0100' is visible. The text 'Then, what is missing?' is written in a large, bold, black font across the center of the image.

Then, what is missing?

A magnifying glass with a grey handle and a gold-colored ring is positioned over a green map. The map features red and blue lines representing roads or paths. The lens of the magnifying glass is focused on a blue circular area, which contains the binary code '01100', '011010', and '0100'.

What can we do?

Have news to share?
